

Cutting Dacron for cabinet <u>without</u> brace.

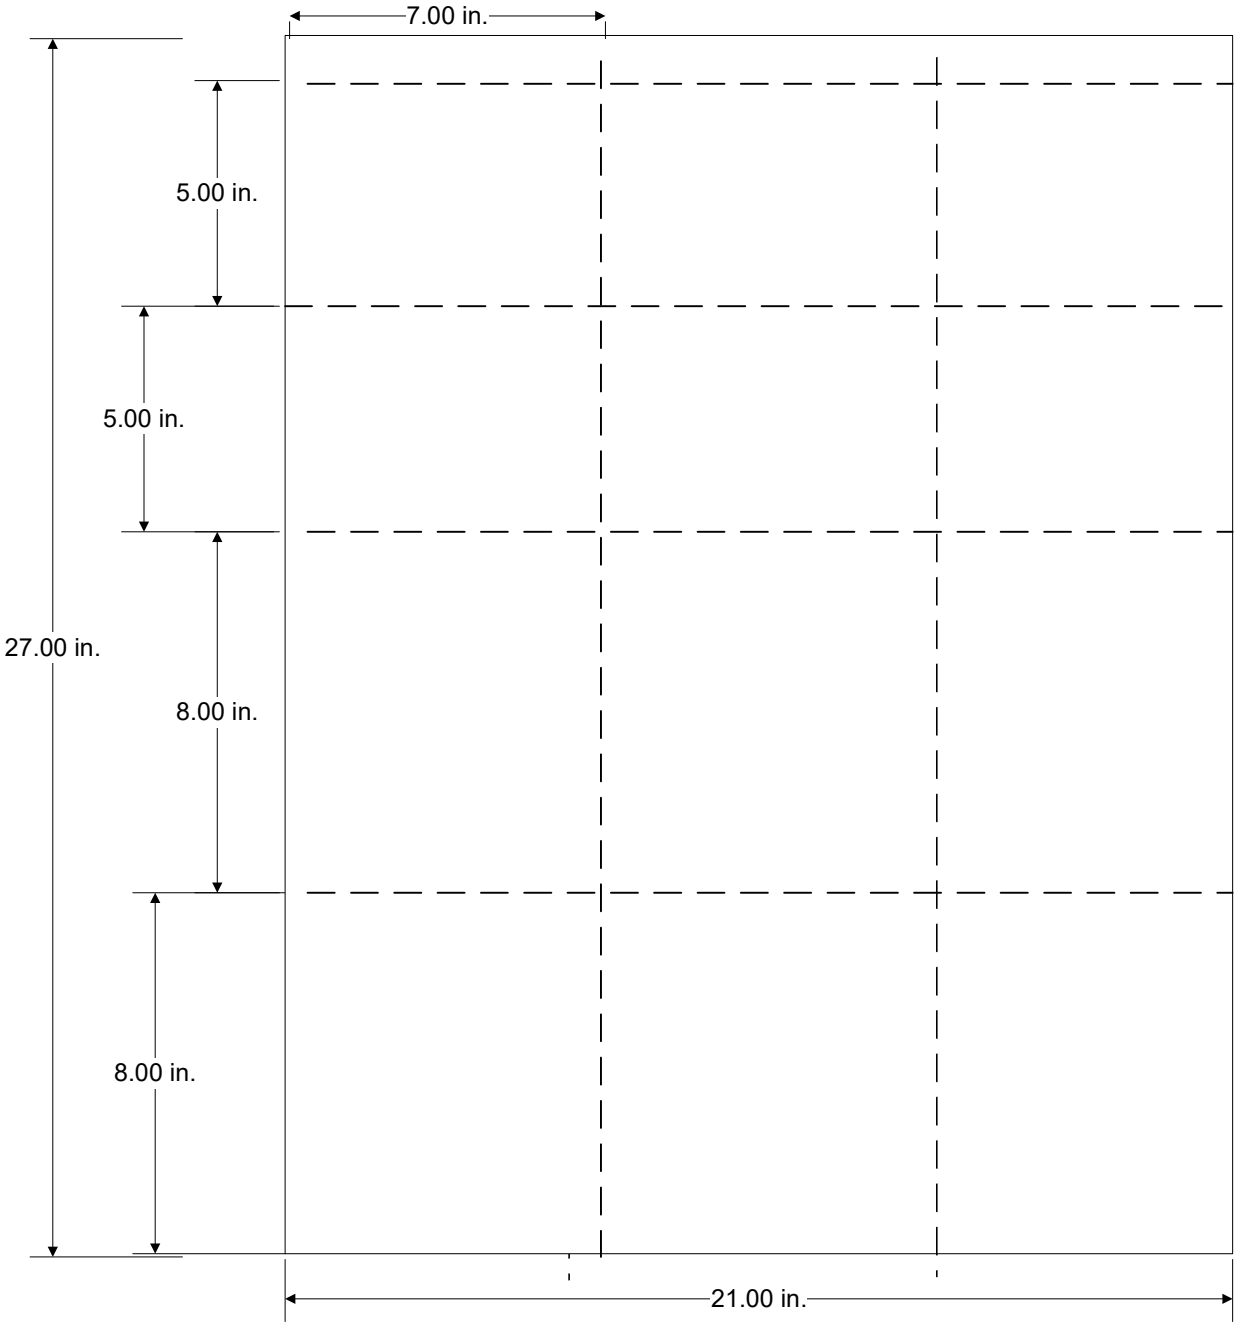

Use a ruler, straight edge and marker to mark the cutting lines.

Cut Dacron along lines.

Use 3 pieces per cabinet .

Don't worry about sloppy cuts!

Your piece of Dacron will be larger than this as it doubles as packing material!

Cutting Dacron for cabinet with brace

Cut Dacron along lines.

Use 3 pieces per cabinet .

Don't worry about sloppy cuts!

Suggested Placement of Dacron

Placement when noty using a brace.

Placent when using a brace

Simplified view of Dacron placement. It will be more difficult to insert the Dacron sheets through the woofer hole, especially at the top of the cabinet when using the brace.
Slit the Dacron to allow the port tube to pass.
